

Surgery Coloring Sheet for Kids: Getting Ready at Home

Surgery helps fix a problem with your body to make you better.

Why are you having surgery?

Draw your face on the person in the box. Then, circle the place where you are having surgery.

Getting ready to go

Your tummy needs to be empty for surgery. This is so you don't get sick. You can't eat or drink anything for a while before your surgery. Not even water! So you may get a little hungry or thirsty.

You can take 1 small toy with you to the hospital! Which toy will you take?
